- 3.6.4.** ~~Once the pit exit light turns green, pit exit will be opened and all cars will be permitted to leave the pit lane to cover a warm-up lap. At the end of this lap all cars starting the race from the grid should stop on the grid in the corresponding starting order with their engines stopped. Cars starting from pitlane, will not be required to conduct a warm-up lap, and should remain in pitlane until the cars on the grid complete the warm-up lap. Any car which does not complete the warm-up lap and reach the grid under its own power will not be permitted to start the race. Unless the Supplementary Regulations advise otherwise, cars will be released from the Dummy Grid straight into a one-lap warm-up. Should weather conditions change between practice and race, the Race Director and/or Clerk of the Course may, if in their opinion it is deemed necessary, allow an additional warm up lap for the Drivers to fully determine circuit conditions.~~
- 3.6.4-3.6.5.** Pit exit will close after 3 minutes have elapsed from Pit opening. Any cars that are late (fail to leave the pits before the first car approaches the starting grid line), shall start from the pit without doing a warm-up lap, under the procedures established in these regulations. The Race Director and/or Clerk of the Course shall act as judge of fact in determining "lateness".
- 3.6.5-3.6.6.** It is not permitted to change tires between leaving the ~~Dummy Grid~~ pits and the start of the race, except in the case of force majeure (puncture, obvious damage) or if the Race Director and/or Clerk of the Course determines otherwise.
- 3.6.6-3.6.7.** There shall be no practice starts during the warm-up lap(s). Cars are not permitted to weave across more than 50% of the circuit width during warm up and all weaving shall cease at the point of passing the last Flag post before the rear of the marked grid positions. Any car weaving to the extent that in the opinion of the Race Director and/or Clerk of the Course creates a danger to other Drivers may be penalized.
- 3.6.7-3.6.8.** At the conclusion of the warm-up lap, cars will assemble under Starter's orders in their allocated positions on the starting grid so that the leading edge of the car remains behind the line denoting the front of the grid box.

All cars required to start the race from the pit lane, must complete a formation lap, and must enter the pit lane at the end of the lap and start from the end of the pit lane as per the procedure specified in Article 3.7.11.
- 3.7.6.** Any driver being pushed from the grid may not attempt to start the car and must follow the instructions of the marshals.
- 3.7.7.** During the formation lap practice starts are forbidden and the formation must be kept as tight as possible. Cars are not permitted to weave across more than 50% of the circuit width during warm up and all weaving shall cease at the point of passing the last Flag post before the rear of the marked grid positions. Any car weaving to the extent that in the opinion of the Race Director and/or Clerk of the Course creates a danger to other Drivers may be penalized.
- 3.7.8.** Overtaking during the formation lap is only permitted if a car is delayed and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, drivers may only overtake to re-establish the original starting order. Any driver delayed in this way, and who is unable to re-establish the original starting order before they reach the control line, must enter the pitlane, and start from the end of the pitlane. A penalty will be imposed on any driver who fails to enter the pit lane if they have not re-established the original starting order before they reaches the control line.
- 3.7.9.** When the cars come back to the grid at the end of the formation lap, they must stop within their respective starting grid positions, keeping their engines running. There will be a standing start, the signal being given by means of lights activated by the starter. Once all the cars have come to a halt - the five second light will appear followed by the four, three, two and one second lights. At any time after the one-second light appears, the race will be started by extinguishing all red lights. In the event of the failure of these lights a National Flag will be used to start the race. The flag will be raised indicating to the Drivers to be on their mark and ready; once the flag is dropped, it indicates the start of the race.
- 3.7.10.** A penalty may be imposed if a driver is found to have moved before the start signal is given.
- 3.7.11. Starts from Pits:**
- (a)** All cars required to start the race from the pit lane, and who completed a warm-up lap, must enter the pit lane at the end of the formation lap and start from the end of the pit lane.

It may be moved to the pit exit only with

~~the Driver in position; the signal to join the race will be given by the illumination of the green light (or waving of a green flag) at pit exit~~

~~(c) If more than one car is affected, they must line up in the order in which they qualified for that race. -~~

~~(d) Where the pit exit is after the start line: The signal to join the race shall be given when the whole field has passed the pit exit on the first racing lap.~~

~~(e) Where the pit exit is before the start line: The signal to join the race shall be given at the discretion of the Race Director and/or Clerk of the Course soon after the field has been started.~~

3.8. Race

3.8.1. Each round will comprise two (2) point scoring races named: "Race 1" & "Race 2"

3.8.2. "Race 1" will be a 12 lap session (or the lap equivalent of 30km) - unless specified differently by the event organizer by means of an official bulletin – and is based on the results of the qualification session.

3.8.3. Should any race distance be reduced at the discretion of the Clerk of the Course or Stewards of the Meeting, it shall still count as a full points-scoring round.

3.8.4. The finishing position of Drivers during "Race 1" will determine the grid position for "Race 2".

3.8.5. Case A - Grid is composed of eight (8) cars or less: Grid for "Race 2" will be a "Full Reverse Grid" based on the finishing order of "Race 1", where Driver finishing at Position 1 will start at the back of the grid, etc.

Case B - Grid is composed of nine (9) cars or more: The top finishers occupying the top 50% (rounded down in case of an odd numbered grid) of total numbers of cars eligible to start in "Race 1" will start "Race 2" in reverse order, the remaining 50% will start "Race 2" in their finishing positions.

Non classified finishers from "Race 1" will take their place at the back of the grid in the order they retired from "Race 1", drivers with most number of laps covered will have precedence.

Example: For a grid of 17 cars: the top 8 finishers in "Race 1" will swap grid positions as follows: 1st occupy grid 8, 2nd occupy grid 7, 3rd occupy grid 6, 4th occupy grid 5, 5th occupy grid 4, 6th occupy grid 3, 7th occupy grid 2, 8th to occupy grid position 1. Finishers 9th and below, will assume the same grid positions.

3.8.6. Drivers that did not start (DNS) "Race 1" will take their place at the back of the grid (i.e., behind the last car calculated from 3.8.5). Should there be more than one DNS in Race 1, the start position will be based on the order by which they qualified.

3.9.6. Any race stopped after the leader has completed 75% or more of its duration may be considered to have finished, unless the Race Director and/or Clerk of the Course, in consultation with the Stewards of the Meeting, deems it appropriate to restart the race. The result will be based on the order of crossing the finish line at one lap less than the number of laps completed by the leader at the time of the first showing of the Red Flag.
